

Motion by Garrett to go with Class C- 3 points second by Flood .

Roll Call: Garrett-aye  
Flood-aye  
Way-aye  
McKinney-aye  
Miller-aye

AYES: 5 NAYS: Motion carried

**2. Brad Milam Battalion 1 (12.11.23)**

Discussion: Way wants a discussion on if it needed to be changed to a Class B for 1 point. Because of the minimal damage that BATT 1 received. Mckinney and Way said that the language for Class C needs to be re-written because of the monetary value and inflation of costs. McKinney wanted to remind them that regardless of the monetary value of damage that they need to see the bigger picture and realize that it still happened. Also wanted to commend Milam for reporting it because it could have gone unnoticed. That he did everything he was supposed to do after the accident. Flood read off the definitions of the Class B and Class C. Garrett said that the stall was stationary, that it didn't move and could have been prevented, hence the reason for Class C. Nyhart informed the VARB committee that they could meet and help change the policies, if they could find common ground.

Motion by McKinney to go with Chief's recommendation, Class C 1 point  
second by Way .

Roll Call: Garrett-aye  
Flood-aye
