**Background:**

City contractors are not currently charged landfill fees for the disposal of waste generated through municipal projects via wording in individual contracts; however, city code does not explicitly waive these fees. This agenda item allows the Fee Committee to discuss the potential waiver of these fees for City-led projects in an effort to ensure streamlined operations and codify what is currently done in each individual contract.

Late fee charges are imposed when teams exceed the designated registration period noted on the sports specific calendar. The Division supervisor has the flexibility to waive the late fee charge when it is in the best interest of the department or program to keep the league viable and productive.
